Utkarsh Gill
Product Designer

Speedcuber, amatuer guitarist & a terrible singer. I love indie folk and country music. I'm a huuuuuuge fan of Pewdiepie, Rick & Morty and Prateek Kuhad. Being attracted to a hilariously dark and twisted sense of humor, I fall into weird social situations.

Experience

Postman - Product Design Intern
Jun 2020 - Sep 2020
Explored the world of APIs - from construction to testing. Designed solutions for the developer persona around the experience of collaboration over APIs.

FortyTwo42 Labs - Product Design Intern
Apr 2020 - May 2020
Worked on a blockchain based digital user-identity product. Designed the complete Information Architecture and user interface for a desktop client.

Wheelseye - Product Design Intern
Nov 2019 - Jan 2020
Redesigned the logistics marketplace and management tool. Worked on the complete design process - from research and ideation to final mocks.
